

BE A HUMAN GPS!

Use the maps in *Junior Scholastic's* World Affairs Annual and Almanac to find the locations at the coordinates in the clues below and name the place or direction called for.

DIRECTIONS: For items 1 through 6, use the world map on pp. 8-9.

1. If you are at 15°S, 95°E, what body of water are you on?	4. If you are at 15°N, 75°E, what country are you in?
2. If you are at 60°N, 120°E, what continent are you on?	5. If you are at 65°S, 45°E, what body of water are you on?
3. If you are at 30°N, 60°E, what country are you in?	6. If you are at 15°S, 45°W, what country are you in?

DIRECTIONS: For items 7 through 10, use the map of North America on p. 10.

7. If you are at 39°N, 105°W, what city are you in?	9. If you are at 25°N, 90°W, what body of water are you on?
8. If you are at 34°N, 84°W, what city are you in?	10. Find the approximate location of your own city on the map. Then describe the direction in which you would travel to get to the city at 19°N, 99°W.

BONUS: Choose a country on one of the remaining maps (p. 11, pp. 14-15, or pp. 18-19) that you might like to visit. Give the approximate coordinates and challenge a classmate to name the country.
